REMARKS

The above amendments and these Remarks are in reply to the Notice of Non-Compliant

Amendment mailed September 4, 2008.

In the Office Action, the Examiner cited the Amendment document filed on December 4,

2007 as non-compliant, writing "Claim 12 underlining is not accurate with respect to text

'creating an annular plasma." Applicant has reviewed the claim listing and identified the

following correction to the document filed on December 4, 2007 to match the claim listing from

the Reply to Final Office Action filed on June 26, 2007:

Claim 12, Line 11: the underlining has been removed from "creating an annular plasma;".

Applicant requests that the listing of claims starting on page 2 and ending on page 13, be

substituted for the listing of claims of the document filed on December 4, 2007.

In light of the above and in light of the arguments and amendments submitted in the

Reply to Final Office Action filed June 26, 2007, it is respectfully submitted that all of the claims

now pending in the subject patent application should be allowable, and a Notice of Allowance is

requested. The Examiner is respectfully requested to telephone the undersigned if he can assist in

any way in expediting issuance of a patent.

The Commissioner is authorized to charge any underpayment or credit any overpayment

to Deposit Account No. 06-1325 for any matter in connection with this response, including any

fee for extension of time, which may be required.

Respectfully submitted,

Date:

September 10, 2008
